

December 07, 2025: Letter to United States Space Force

I am writing again to alert your office to the ongoing fact that your surveillance tools are being misused by people working on behalf of the Donald Trump team.

Your government spying tools are being used by a team of criminals to 'engage' with my home through the use of 'machine-noises' and vehicles that constantly drive past my house to coincide with the important religious work that I am producing in my home.

There is a concerted effort by a team of people that are constantly surrounding my house to cause acoustic agitations into my life as a 'reaction' and constant 'presence' over everything that I am doing in my own house.

Your team is acting as if they are 'joking' with me (as a fun-loving friend) or 'punishing' me (as a mortal enemy) depending on how receptive (or how vehement I am in opposition to) their ongoing rape of my home.

The screenshot shows the United States Space Force website. At the top, there is a navigation bar with the USSF logo and the text "United States Space Force". To the right of the logo are links for "LEADERSHIP", "NEWS", "SPACE FORCE POLICY", and "CONTACT". Below the navigation bar, there is a section titled "Personnel Transfer Questions" with a link to a mypers.af.mil page. To the right of this section is a "Phone numbers" section with contact information for the Press Desk and Public Inquiries. On the left side of the page, there is a "Contact Form" with fields for Recipient, Your Name, Your Email, and Subject. A green message box above the form states "Your message was successfully submitted. Thank you." The form fields are filled with the following information: Recipient: Public Inquiries, Your Name: Chris Carlin, Your Email: ChrisNoelCarlin@gmail.com, and Subject: Unlawful Spying and Engagement with my Home Part 1 of 2.

Unlawful Spying and Engagement with my Home Part 1 of 2

Part II

I am being given the distinct impression that there are members of your United States military that are, in every serious way of describing this, addicted to the action spying on our life.

I am alerting your office again that your United States military has become a monster that is attempting to personally engage with my home as it spies on my important work and steals it house for its own benefits.

I am also pointing the finger of accusation directly at Donald Trump and Elon Musk as the two culprits that are both ordering and enabling this unlawful surveillance and engagement with my house to occur on a day to day and hour to hour (as well as minute by minute and second by second) basis.

I am reporting to you (and posting this publicly on the Internet Archive) that your tools are being used by a large gang of criminals to cause intentional harm to me inside of my home (as well as following me everywhere that I go).
